You will be working in pairs or threes

- Create a poster or other visual displaying all of your research.
- The information on your poster must be hand written, legible and understandable - Not only I, but all of your classmates, will be reading your poster and taking notes
- Pictures, always a welcome distraction from words
- Teams – You are being given the flexibility to choose your partner and topic

**Things you should consider when making your poster…**
- You must include at least ONE hand drawn map.
  All maps must be original and drawn by you - A map printed off the Internet will not be acceptable and do not trace it
